**CPI - Fuel Oil And Other Fuels**  
**Yellowknife, January 2010 to January 2014**

Between January 2014 and December 2013, prices in Yellowknife increased 0.3%. This monthly increase was mostly a result of higher prices for fuel oil & other fuels and private transportation. Fuel prices have increased over the last 3 months, coinciding with the start of the home heating season.

CPI values for Yellowknife and Whitehorse include estimates of price changes for owned accommodation based on the price of rental accommodation. As a result, the all-items indexes published for these centers are not strictly comparable to those for Canada and Edmonton.
